Please kindly refer to the following details.

Maximum number of the share warrant shall be 278 lots in accordance with the particulars set forth in (3)

below.

The number of shares to be granted upon exercise of the share warrant shall be the 278 ordinary shares of the Company at the maximum and in the event of adjustment in the number of shares granted as defined in (3) ① below, the maximum number of shares shall be the total amount of the post-adjustment shares granted multiplied by the maximum number of the share warrant stated above.

- (2) The share warrant, the subscription terms and conditions of which shall be finalized subject to the delegation shall require no payment.
- (3) Particulars of the share warrant, the subscription terms and conditions of which shall be finalized subject to the delegation

① Type and number of shares to be granted upon exercise of the share warrant

The type of shares to be granted upon exercise of the share warrant shall be the ordinary shares of the Company and the number of shares of the same (hereinafter referred to as the “number of shares granted”) shall be one (1).

However in the event of share split-up (including free-of-charge offering of ordinary shares of the Company and the same shall be applicable to the share split-up as well) or share split-down of ordinary shares of the Company to be exercised on or after the offering date of the share warrant (hereinafter referred to as the “date of offering”), the number of shares granted shall be adjusted in accordance with the following formula.

Post-adjustment number of shares granted = Pre-adjustment number of shares granted × Percentage of share split-up / split-down

Besides the event above, if the adjustment in the number of shares granted is required on or after the date of offering, the Company shall have the right to do so within a reasonable extent.

Any odd lot falling short of constituting one (1) share upon adjustment above shall be rounded off.

② Value of the assets to be invested at the exercise of the share warrant

Value of the assets to be invested at the exercise of each share warrant shall be the price per share to be granted upon exercise of each share warrant (hereinafter referred to as the “exercise value”) multiplied by the number of shares granted.

The exercise value shall be calculated by multiplying 1.05 by the average value of the closing values of ordinary shares of the Company on the Tokyo Stock Exchange on each business date in the preceding month to the month of offering (excluding a day on which no trade is executed) (hereinafter referred to as the “closing value”) to be rounded up to the nearest JPY one (1), or the closing value as of the business date

immediately prior to the date of offering, whichever is higher (if there is no closing value available on the aforesaid business date, the closing value on the immediately preceding trade date shall be adopted). The exercise value shall be subject to the adjustment as follows.

- i. In the event of share split-up or share split-down of ordinary shares of the Company to be exercised on or after the date of offering, the exercise value shall be adjusted in accordance with the following formula and any odd number falling short of constituting JPY one (1) upon adjustment shall be rounded up.

$$\text{Post-adjustment exercise value} = \text{Pre-adjustment exercise value} \times \frac{1}{\text{Percentage of share split-up/split-down}}$$

- ii In the event of issuing new ordinary shares of the Company at a price which is lower than the market value or disposal of the Company shares on or after the date of offering (excluding the exercise of sale and transfer of the Company shares in accordance with Article 194 of the Company Law (claim for sale and transfer of odd lot shares by the odd lot shareholders), exercise of share warrant in accordance with Article 280 (19) of the old Commercial Code prior to the enactment of the “Law on Partial Amendment to Commercial and Other Codes” (Law No. 128, 2001), conversion of securities which are to be converted or convertible to the ordinary shares of the Company, or exercise of the share warrant entitled to offering of the ordinary shares of the Company, including those affixed to the convertible bonds), the exercise value shall be adjusted in accordance with the following formula and any odd number falling short of constituting JPY one (1) upon adjustment shall be rounded up.

$$\text{Post-adjustment exercise value} = \text{Pre-adjustment exercise value} \times \frac{\text{No. of shares issued} + \frac{\text{No. of new shares} \times \text{Payment per share}}{\text{Market value}}}{\text{No. of shares issued} + \text{No. of new shares}}$$

“No. of shares issued” referred to in the above formula shall be the sum of the total ordinary shares of the Company issued after subtracting the number of ordinary shares held by the Company. In the event of disposal of the Company shares, “no. of new shares” shall be replaced by “no. of Company shares disposed”.

- iii In addition to the formula above, in the event of free-of-charge offering of other types of shares to the ordinary shareholders or dividend of other company shares paid out to the ordinary shareholders on or after the date of offering, where adjustment in the exercise value is required, such offering or dividend shall be subject to adjustment by the Company within a reasonable extent in consideration for their terms and conditions.
