Notice regarding construction contract on work related to special interior and exterior features at Moominvalley Park

February 9, 2018—The capital investment plan covering special interior and exterior features at **Moominvalley Park** was described in “**Notice concerning transfer of Moominvalley Park site, capital investment plan and borrowing of funds as well as subsidiary transition,**” released July 12, 2017. Today, the Board of Directors at FinTech Global Incorporated (hereafter, “FGI” and “the Company”) gave its approval for Moomin Monogatari, Ltd. (hereafter, “Moomin Monogatari”), a subsidiary of the Company, to sign a construction contract for work on interior and exterior features (target of construction: movable property) at Moominvalley Park. Also at this time, FGI gives notice that FinTech Asset Management Incorporated (hereafter, “FAM”), which maintains a service agreement with Hanno Local Resource Utilization LLC on management of Moominvalley Park, will sign a construction contract (target of construction: real estate) for special interior and exterior features at Moominvalley Park. Details are provided below.

Details

1. Background

Special know-how pertaining to design and construction is required to create several attractions and the museum at Moominvalley Park. Nomura Co., Ltd., was asked to design special interior and exterior features at Moominvalley Park to give tangible shape to the park concept conceived through efforts hinging on Moomin Monogatari, and the company moved forward on this request. Now, the Board has agreed that this same company will be contracted to construct these interior and exterior features.

Note that there are two separate contracts for interior and exterior feature-related construction work by Nomura. The one signed with Moomin Monogatari, which is the likely operator of Moominvalley Park, is for work on movable property. The one signed with Hanno Local Resource Utilization is related to real estate.

2. Content of Construction Contract

Content	Construction work related to special interior and exterior features at Moominvalley Park
Start	February 15, 2018 (planned)
Completion and delivery	January 31, 2019 (planned)
Construction cost	Moomin Monogatari: ¥942 million Hanno Local Resource Utilization LLC: ¥1,125 million (The above amounts are payments for construction work under the construction contract (excluding consumption tax), and the cost of design is not included.)

3. Signing Party in Construction Contract

Name	Nomura Co., Ltd.	
Address	3-4, Daiba 2-chome, Minato-ku, Tokyo	
Name and title of representative	Shuji Enomoto, President & CEO	
Business activities	Research, consulting, planning, design, layout, creation and construction to build visitor-attracting environments, as well as services to revitalize, operate and manage various facilities and events	
Paid-in capital	¥6,497 million	
Date of establishment	December 1942	
Relationships with FGI	Capital relationship	Not applicable
	Personnel relationship	Not applicable.
	Business relationship	The company is designing special interior and exterior features at Moominvalley Park.

4. Schedule for Construction Contract

Resolution by FGI Board of Directors Approval at FAM	February 9, 2018
Signing of construction contract	February 15, 2018 (planned)

5. Outlook

The impact of this contract on business results is minor.

Note that in “Notice concerning transfer of Moominvalley Park site, capital investment plan and borrowing of funds as well as subsidiary transition,” released July 12, 2017, the anticipated cost of special interior and exterior features at Moominvalley Park was reported to be about ¥2.5 billion. But even with plans by Moomin Monogatari, Ltd., to sign construction contracts with three companies for work on special interior and exterior features other than that described above, for a combined contract amount of ¥180 million, total investment for special interior and exterior features will likely reach ¥2.25 billion.
